Office of the University Registrar

Memorandum

To: Members of the University Community
From: Dominic J. Galante, University Registrar
Date: October 30, 1997

I am pleased to announce the appointment of Gerard Quinlan to the position of Assistant Registrar. Gerry is replacing Jean Landis who has decided to stay home with her two children to be a full-time mom.

Gerry, who is a Philadelphia native, recently returned to the area to pursue professional and academic challenges. He received his Bachelor of Science in Business Administration from the University of Notre Dame and has done graduate work at DePaul University. Most recently, Gerry worked at Northwestern University where he held several administrative positions and was the head rowing coach.

Gerry brings to his new position a great amount of enthusiasm, dedication, commitment, and respect for the La Salle tradition and will be a welcomed addition to the Registrar's Office and to the university.

With this in mind, we would encourage you to stop by the office and help us welcome Gerry and make him feel at home in his new surroundings.

Making Links Beyond the Classroom Walls

Studies have shown that through community-learning students increase their academic achievement. Specifically, they attain better grades, define clearer goals for their future, get into better graduate schools, and integrate and apply course work more swiftly and completely.

This session, led by Rosemary Barbera, will examine ways that we can help our students continue their learning outside of the classroom. The methodology of community-learning will be introduced, with special emphasis on experiences at La Salle.

To preregister for a session, please call x1193, email tlc@lasalle.edu, or send a note to Box 222.

**Academic Affairs Committee
Minutes of the September 23, 1997 Meeting**

Present: N. Brewer, G. Bruce, M. Burke, L. Colhocker, G. Johnson, A. Mickle, B. Millard, J. Volpe, D. Vilorio Z Wolf.

1. Two faculty appointments need to still be made for the committee; the times for meetings may need to change.
2. The minutes of the April 18, 1997 meeting were approved. (8-0)
3. The Provost reviewed the charge to the committee.

Program Review

1. The Dean of Nursing asked that the Academic Affairs recommendations for Nursing be circulated.
2. The Discussion turned to Program Review in the School of Arts and Science. Reports were available for the science departments. The Dean reported that the reviews were done within the guidelines of Program Review established by Academic Affairs. It was also reiterated in discussion that one of the prime purposes of Program Review was a planning purpose. It was decided that the review of the Science Departments would happen in a similar manner to the review of the Nursing Programs. Members of Academic Affairs were assigned various sections of the report and asked to give an outline of their assessment by the end of October. Following is the breakdown for review of the document:

Curriculum/Program	Ann Mickle; Bro. Colhocker
Students & Learning	Zane Wolf, Nancy Brewer, David Vilorio
Governance and Mission	Greg Bruce and Mary Burke
Faculty	Jerry Johnson and Joe Volpe
Conclusions & Recommendations	Everyone
Resources	New Faculty Appointments

In conducting the review some broad questions to look at are: What is the relationship between inputs and outputs? What resources do we have and what to they yield? Outcomes Assessment—Evaluation of Learning Goals and other goals—how are we doing this? A discussion of outcomes assessment followed. It was pointed out that this was a priority for all schools.

Future Agenda Items for Academic Affairs committee

- Organizing for the task of outcomes assessment; what might be a simple approach?
- Discussion of calendar—four options were presented for discussion

Curriculum Design Committee
Minutes, October 17, 1997

Present: Rosemary Barbera, Mary Burke, Tom McPhillips, Lynn Miller, Marc Moreau (Chair), Fran Ryan, Steve Smith, Margaret Watson, Jeannie Welsh, Sam Wiley

Excused: Eileen Giardino, Chris Pinto

The meeting was called to order at 1:35 p.m.

The minutes for the September 30th meeting were approved as written, and the minutes for the October 10th meeting were approved as amended.

1. The committee focused next on its continuing review of the general education requirements at other universities and colleges. Several of these colleges had unique aspects to their curricula, as noted below.

Mt. Holyoke:

Students may be exempt from taking core courses if they can demonstrate that they possess the "values" of the course.

Lafayette College (PA):

Students take a first year seminar during the fall semester (enrollment limited to 15). Seminars can be on a wide number of topics, but are grouped into clusters based on the concepts/ideas covered. Students determine their top five choices from among these topics during their senior year in high school, and are enrolled in one of their choices. Topics include: Why Poetry Matters, the Impact of the Population Explosion, and Who Am I and Why Am I Here. Courses are not team taught, but include activities outside the classroom.

During the second semester, students take a follow-up course that is a writing seminar.

Each of these courses includes a 4th credit for the cluster or lab work that is done. The goal of all courses is to create a learning community.

During their second year, students take a values and science/technology seminar. This is an interdisciplinary course that is required of all students (enrollment limited to 20 students). The goal of the course is to understand engineering in a liberal arts environment.

All other core requirements are fairly typical of liberal arts colleges and are based on a distribution of courses in certain areas.

Notre Dame:

Students at Notre Dame do not select a major until the end of their first year. During that year they take 10 courses that include a humanities seminar on a topic selected by the professor, a composition course (the course requires the student to write a minimum of 30 pages), and a seminar that introduces the student to research methodologies. The goal of these courses is to provide a common experience to all students.

The rest of the core includes distribution courses, including a PE or ROTC course.

Holy Family:

A senior level ethics course is required of all students

Bowdoin

All students are required to take two courses in a topic that is non-eurocentric; language courses do not meet this requirement.

2. After this review, the committee turned to a discussion regarding how to gain input from our colleagues on the form and content of the new core. Last week we had agreed to hold round table discussions about the core that would focus on learning goals and how to insure that the goals were being accomplished by the core courses. It became clear as we discussed this option more fully, however, that these meetings could be extremely unfocused and difficult to conduct if they aren't structured properly. A wide variety of suggestions were discussed to resolve these difficulties. At the end of the meeting, the decision was tentatively made to poll our colleagues (faculty, staff, and students) regarding their views on relevant questions, such as:

1. As you review our current core, which goals are not being addressed well?
2. Which of our learning goals can be met by the courses or activities offered in your department or program?
3. What creative ideas do you have for courses or activities that can meet one or more of the learning goals?

A letter will be drafted to send to the campus community that requests that people answer these three questions. We will tabulate these responses, and then plan how the roundtable discussions should be structured. We hope to gather this information rather quickly so that the roundtable discussions can be held in a timely manner.

The meeting adjourned at 3:45 p.m.

Respectfully submitted,

Margaret Watson

THE CHILE SERVICE PROJECT

FRIENDSHIP WITHOUT BORDERS-
AMISTADES SIN FRONTERAS

TO THE LA SALLE COMMUNITY:

A group of nine students will be traveling to Santiago, Chile, during our break in December 1997, to work with the people in a shantytown on the outskirts of Santiago called La Pincoya. Severe winter and spring flooding has caused extensive damage to this area. Some of our time will be spent with the people in the neighborhood working to recover from this natural disaster. We will also be working with the children and teaching computer skills to neighborhood leaders with five donated computers.

Although Chile appears to be a wealthy country, 40% of its population still lives below the poverty line and many people struggle to make it each day.

In order to go on this trip each student must raise \$1,200.00. We see this trip as an opportunity to build bridges and learn about other countries and cultures. Any contribution you can make to our group would be greatly appreciated.

Thank you for your consideration of this request. We are very excited about returning to Chile for the fourth Chile Service Project. If you have any questions, please call the Center for Community Learning at La Salle University at (215) 951-1932.

Sincerely,

A handwritten signature in cursive script that reads "Carolyn Bonner". The signature is written in dark ink and is positioned above the printed name and title.

Carolyn Bonner
Co-Coordinator of the Chile Service Project

THANKS SO MUCH TO ALL FACULTY ADVISORS & STUDENT ORGANIZATIONS!!!

We had a tremendous turnout for the first Open House, thanks largely to your help. The Office of Admission and Financial Aid would like your help once again. The last Open House is approaching quickly and we're looking for a few more volunteers. Once again we would like to extend the opportunity for you and your organizations to participate in the last Open House of 1997. Ideally, we would like to have the entire La Salle community available to prospective students to help in any way possible. Realistically, if your group has an obligation to the La Salle community, this could be an opportunity to fulfill that commitment. With such a visible presence on campus, volunteering at an event such as this could also benefit your group in the very near future.

1997's last Open House, will be on:

Saturday, November 8, 1997

From 11am-3pm

By volunteering with us you'll be playing a role in the admission process once again, which will not only benefit your organization, but the entire campus community. **THANKS AGAIN IN ADVANCE!**

For more information call the Office of Admission and Financial Aid at (215) 951-1500 and ask for Jayme or Chet.

Announcing a new Counseling Center Service
to the La Salle Day-Student Community

Beginning on Monday, 10 November at 3:30 PM, a weekly support group for students raised in a "dysfunctional" family will begin.

This group will be held in the Counseling Center, McShain Hall, and is open to all day-students. Please share this information with students and ask that they contact the CC for more information or to reserve a space as the group will be limited to 12 participants.

For a detailed reading list on the topic of students from dysfunctional families and their issues in college, please email Robert Chapman (chapman@lasalle.edu). In addition, there is an essay entitled, *Home for the Helligdays* that is available in the collection of essays on Robert's homepage.

RE: Internship, Co-op and Summer Jobs Fair '97

The Internship, Co-op and Summer Fair will be held on November 6, 1997 from 12-2:00 in the Ballroom.

We started in August, matching the number of students in each major with employers and then faxing and mailing invitations to hundreds of companies. Three months and scores of phone calls later, we are very happy to have over 70 employers participating in the fourth annual internship fair. A partial list of organizations includes the EPA, Merck, Albert Einstein, Lippincott Raven Publishing, Fox TV and Johnson and Johnson.

But all that work will have been a waste of effort if we don't have a good student turnout at the Fair. We won't get a second chance to impress these employers with the caliber of our students. Thanks to your help, last year's fair was a success; many students reported that they heard about the fair from faculty and staff. Although we are calling and mailing to students to ask that they attend-**WE NEED YOUR HELP AGAIN!** Anything you could do to encourage student attendance would be greatly appreciated.

Employer booklets will be available on Tuesday, November 4th for you to review. In the meantime, please do not hesitate to contact one of our professional staff should you have questions.
